CANCER FUND
IMPACT INVESTMENTS™

About CANCER FUND

CANCER FUND is a community investing to bring innovations to patients, survivors, previvors, and their care providers.

CANCER FUND I: $10M Initial Capitalization

CANCER FUND I,LLC is CANCER FUND's first impact investment fund, investing in early-stage companies to support cancer innovation and to close the funding gap between formation and later stage capitalization.

Our Focus: Impact

CANCER FUND prioritizes impact as well as return and aims for a measurable impact on:

Patient Outcomes	Improving survivability and quality of life
Access to Care	Increasing care access to underserved and at-risk individuals
Cost of Care	Reducing cost-barriers to patients and healthcare institutions

Investment Themes

CANCER FUND invests in innovations across three investment themes:

- Therapies & Management
- Diagnostics & Monitoring
- Preventions & Enabling Technologies

Investment Model

When fully capitalized, CANCER FUND I is designed to make an estimated 30-40 investments in early-stage companies. The Fund targets innovation across cancer types in the five earliest and highest risk stages of development when a gap in funding availability creates barriers for emerging innovations to reach patients.

DISCLAIMERS: Contents of this document are provided for general information purposes only and do not constitute an offer to sell or a solicitation of an offer to buy any security of CANCER FUND or its affiliates in any jurisdiction. CANCER FUND does not intend to solicit and IS not soliciting, any action with respect to any Security or any other contractual relationship. Nothing in this memorandum or the contents thereof, individually or taken in the aggregate, constitutes an offer of securities for sale or a solicitation of an offer to buy any security in the United States or in any other jurisdiction in which such an offer or solicitation is unlawful. CANCER FUND does not make investment recommendations and no communication, through this document or in any other information materials should be construed as a recommendation for any security. Securities listed herein are intended for accredited investors. Investments in early-stage ventures are speculative in nature and involve a high degree of risk. Those investors who cannot afford to lose their entire investment should not invest in such projects. There is no guarantee that the stated project valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive restricted ownership that may be subject to holding period requirements. Early-stage investments should only be part of your overall private investment portfolio. Investors who cannot hold an investment for at least 5 years should not invest.
